MEDIA RELEASE

Service Delivery Defects Catch-up Plan

Given our backlog accumulated over the level 5-3 nationwide lockdown period, the JRA has an estimated 6000 service delivery requests that pertain to fixing of potholes. On average, there are approximately 48 000 potholes. As a result, we have developed a program which commenced on the 3rd of November 2020 to address the backlog of pothole repairs, reinstatements and the cleaning of stormwater kerb inlets.

We have procured the services of emerging Contractors to supplement our in-house teams with the aim to fast-track road repairs and other road maintenance work. We aim to focus on 3 Regions per week, and for this week the focus is in Regions A, B and E.
