

CITY OF JOHANNESBURG

**Councillor H. N. MAKHUBA**

Member of the Mayoral Committee  
Transport

**Press Release**

**17 August 2017**

### **Visible results in Mayibuye and Kaalfontein, Region A after City's R103.4 million Investment**

Johannesburg Roads Agency's (JRA) has simultaneously embarked on the R89.5million gravel roads upgrade of Mayibuye and Kaalfontein community in Midrand, in addition to the prioritized R13.9 million Kaalfontein pedestrian bridge to ensure residents safety.

The City's combined investment of R103.4million in low income communities in Midrand forms part of City's goals of ensuring improved residents experiences, job creation and access to service delivery. The gravel roads upgrade to surfaced standards in Kaalfontein and Mayibuye in Midrand are underway. The project includes the implementation of storm water drainage systems.

MMC for Transport Cllr Nonhlanhla Makhuba said: "Progress on the ground has been noted with visible improvements to the local community. The Kaalfontein and Mayibuye gravel roads upgrades to surfaced standards aligns to the cities priority in ensuring the advancement of pro-poor development that provides meaningful redress through the provision of services. These roads will ensure access to services and improved mobility. The construction of the Kaalfontein pedestrian bridge forms part of the city's priority pedestrian bridge development programme to enable the safe movement of residents in flood conditions."
